As the Committee chair, I want to thank the other members of our committee for their time and efforts in attempting to provide an entire slate for the upcoming Bridge.

We spent many hours and several online video conferences to solicit fellow District members to provide us with a response to our requests. In many instances our requests went unanswered or ignored. It is a sad state when this organization has lapsed into such a malaise. This is my opinion and mine alone.

Respectfully,

P/D/C Vincent Evans, P-IN
