What can I say? We've cancelled lots of stuff (there's a list hidden somewhere in this issue of the Log).

We've also provided you with some interesting links to online courses you can take; information on benefits you have with your membership (the best for me so far is Office Depot/Office Max); and some other fun links.

As the media is saying more and more, Social Distancing. Someone sent me an interesting little cartoon

which says it all which I've included somewhere inside.

I know you want to know when this will end so we can get back to the enjoyable activities we have as a Squadron. All of us want this but as Commander, I want us all to be safe and well and we're watching the numbers and the plans - maybe late summer? But we will keep you posted.

Want to be a contributor to the Log? Doesn't have to be a lot, just something fun or interesting. If you are practicing safe distancing and boating let us know how that is working. Send some boating stories, hints, ideas or even some safe events for us to use and enjoy?

My eMail is: sldarcy@roadrunner.com.

Stay Safe and Stay Well!

Forty Seven Years of Service to Boaters
1974 - 2020

Please Remember...

All members are requested to notify our commander or editor of the death of any other member or a member's family as soon as possible. We want to express our condolences in a timely manner and we need the help of all our members to this end.

We have Rules and “THEY” have Rules!

At the Annual Meeting, it was discussed that the Squadron By-Laws have changed so we will be asking for help to verify our Squadron By-Laws are in agreement with the model Squadron By-Laws.

We still have two openings for members to help for this electronic job? **Contact Leo Robillard (Rules Committee), 413-499-1625.**

There is always something broken on a boat - you just don't know about it yet!

MAYBE WE CAN OFFER SEAMANSHIP IN THE FALL OR EARLY SPRING

The new Boat Handling (replacing Seamanship) has the following sections:

- 0—Getting Started
- 1—Rules of the Road
- 2—Confidence in Docking and Undocking
- 3—Boating with Confidence
- 4—Anchoring with Assurance
- 5—Emergencies on Board
- 6—Knots and Line Handling
- Final Thoughts

What do you want to learn? Please let us know. Leo, Tom or Susan

Let us know if you need a name tag with our own “Moby” on it (No Charge). Send an eMail with names needed to Cdr Susan at sldarcy@roadrunner.com with names needed

IDENTIFYING UNKNOWN PLANET

I looked out the window and saw a very bright light in the sky. I knew it had to be a planet because it did not blink. Using a hand bearing compass, it gave an AZIMUTH of less than 225 degrees.

Using a protractor as a make shift sextant, the planet had an ALTITUDE of less than 45 degrees.

Checking with the 2020 edition of the NAUTICAL ALMANAC (N.A.) for the date of January 6 (page 12), the first thing I noticed was the BRIGHTNESS MAGNITUDE. Venus was -4 and all other planets were much less.

I looked down to the bottom of page 12 for the SHA of Venus and it was 37 degrees.

To double check, I went to the graph on page 9 of the N.A.

Upon inspection, I find only one planet is west of the sun meaning it occurs after noon and it is Venus.

There are several ways to find the exact values of ALTITUDE and AZIMUTH namely:

- * Rude star finder
- * Cosine formula
- * Celestial Calculator from U.S.P.S.
- * Google

I believe I have identified my UNKNOWN PLANET.

Answer: VENUS with the following information:

ALTITUDE 32 degrees AZIMUTH 205 degrees SSW.

Leo Robillard

During this time of Stay at Home, I do receive a lot of humorous cartoons and sayings. This struck my fancy and I wished I could put it up at work.
