# Picnic - Summer Kick-off BIG SUCCESS

This Picnic celebrated the beginning of summer. It also provided the squadron members the opportunity to "thank" the members of the Cornwall Yacht Club, all of whom were invited to the barbecue, for their generous contribution to the success of our squadron through allowing us to use their clubhouse and facilities for our Executive and General Member meetings, many of our advanced grade and elective courses (of course, the CYC members are also invited to take our courses), and our special events. The only time that SKPS pays a \$100 rental charge to the Club is for

our special weekend events, such as our holiday party and COW. The officers and members of CYC are most supportive of our squadron and this special evening is always very well attended and appreciated by the members and families of CYC.

Chiefly organized by Helene Stagliano, setup and decorated by Jeanette Sangervasio, with member donations of lots of difference salads, baked beans, casseroles, a variety of chips, and hot dogs and hamburgers, the picnic got underway. With cooks Tony DiStefano, Alex Stach, and a whole bunch of assistant cooks and servers (almost everyone was doing something to help), the grills kept turning out nicely cooked meats. Add a bun or two,

and it felt like a real party. Some brave souls (or foolish young people) stayed outside in the high heat and humidity. (Us smart folks kept mostly in the air conditioned clubhouse.

Once everyone was filled, perhaps "stuffed" is a better descriptive term, the safety demonstrations began dockside. Pete Skorewicz, adorned in his wet-suit, was our drowning "volunteer" with Bob Wilson and Alex Stach (plus a whole bunch of others) standing by to pull Pete from the water between demos of (1) the wrong sized PFD, (2) the right sized standard PFD, (3) the manually operated suspenders type PFD, the automatic suspender-style PFD, and the "fanny pack" PFD. The automatic suspenders worked with incredible speed and success, turning Pete face-up quickly. Had he been unconscious, he would have been breathing air, not water!

Next came the fire extinguisher demo with fireman, Captain Steve Nachbar. Using a dozen on-lookers, Steve instructed each on the use of the various types of fire-extinguishers. It was dramatic and the audience as well as the participants got a real education on extinguishing fires. Great job, Steve.

The Sun was now setting, a little cooling (not much) began, and became the backdrop for the flare demonstration. John Ledwith and Tony DiStefano assisted both adults and children with the igniting and safe and proper handling of the flares, including handhelds and aerials. There was a little "holding of one's breath," when Corey Gower fired off an aerial/parachute flare. In fairness to Corey, there did not seem to be any breeze, and he did fire the flare well into the "safe-zone," BUT... as the flare drifted slowly down and toward P/D/C Garnsey's boat...

A sigh of relief, and the safety demonstrations were complete. All flares and fires were extinguished and it was time for Jeanette's chocolate cake. A delightful conclusion to another exceptional Storm King Power Squadron meeting. *Did you miss this one?*

#### **Advanced Grades Completed**

As the summer begins, educational classes at Storm King have come to a very successful conclusion. Thanks to the efforts of our SEO, Nat Sobelman, and an excellent group of dedicated instructors, six new Seaman have emerged from our ranks: Vincent J. Evans, Vingie Genco, John C. Ledwith IV, Warren L. Washington, Jeffrey T. Croucher, and Jill Croucher. Thanks at least in part (plus a little studying) to the fine teaching by Nat Sobelman and Tony DiStefano, all six students scored in the 90's, a remarkable achievement. **CONGRATULATIONS, ALL!** 

With the hot and humid weather, some attendees stayed in the air conditioned clubhouse, while others braved the beautiful evening on the lawn.

Our *Piloting* class also went well, although fewer students, both Florence Thomas, P and John (Jack) Thomas, P did extremely well – **CONGRATULATIONS!** 

Finally, for our Advanced Grades (helped along by Wayne Garnsey), both our Acting SEO, Lt/C Corey Gower, AP and Larry Kirwan, P did a great job and passed their *Advanced* 

*Piloting* with a navigator's precision. **CONGRATULATIONS!** Note: Interestingly enough, Larry did not start off with *Seamanship*, but began his Squadron Education with Piloting, so he is now challenging *Seamanship* (as a Naval Captain) so he can be awarded the grade of AP. Way to go, Capt. Lawrence Kirwan, ret. (and you thought the Navy's regulations were tough)!!

#### **Vessel Safety Checks**

A VSC can identify SAFETY and money saving items:

- By preventing citations by meeting federal and state and local safety equipment requirements.
- By identifying educational and equipment-related possible boating insurance discounts.
- By increasing awareness of safety practices to avoid accidents and costly breakdowns.

A Vessel Safety Check can reduce accidents and injuries by educating the boater as to the value and use of marine safety equipment, and other safe practices on the water.
